An Authentic

LIST

OF THE

HOUSE OF PEERS:

As they Voted For and Against the
CONVENTION.

Whorin is shown how large a Sum is
given paid Yearly to several Noble
Lords, besides the Sum I have said
may be constant on them, their Rela-
tions and Friends.

LONDON:

Printed in the Year 1789.

(Price Tenpence.)

And for a List of the Names of the
Voted For and Against the Convention.

An Authentick LIST of the Members of the House of Commons, who Voted For and Against the late *Convention*, hath been lately printed—since which, several false Representations have been made concerning the Behaviour of several Noble Lords upon the same Occasion; it hath been, therefore, thought proper to do the same Justice to their Lordships on both Sides (that hath been done to the Members of the House of Commons) by the following True and Authentick List of all who Voted For and Against that memorable Transaction.

The following List also shews how large a Sum of Money is *visibly* paid yearly to several Noble Lords, besides the *secret Favours* that may be conferr'd on them, their Relations and Friends, which (*did not the Nation intirely depend upon their Lordships Honour*) might be an Inducement to support the worst Minister in the most pernicious Measures, to the Destruction of their Country.
